

Special Education Minor

A minor is a special program to be taken along with a major to complete your skills and increase your career opportunities. More information on minors is in the Other Requirements chapter.

Special Education Without Licensure

Open to any major, this minor can usually be completed within a four-year program. Applications for this minor are accepted in the EDP office in 201 McGuffey Hall, each year until enrollment limits are reached. Online classes during winter and summer terms may be required.

Program Requirements

(18 semester hours)

| Code | Title | Credit Hours |
