

Business-Economics- Bachelor of Science in Business

For information, contact the Department of Economics, 2054 FSB, 513-529-2836.

This curriculum is for students primarily interested in economics who also desire a broad background in business. It helps you understand how economic analysis informs decisions made by businesses and by consumers, how a market economy functions, and how governments determine economic policy. Economic analysis developed through the major is helpful in making independent, well-considered judgments.

Course work involves both required theory courses and electives. Theory courses provide common analytical background of modern economics and serve to build analytical skills. The generous number of electives allows you to pursue different fields, depending on your interests and educational background.

Honors in Economics

For details on honors in economics please see the departmental website

Program Requirements

Code	Title	Credit Hours
Required courses		
ECO 311	Examining Economic Data and Models	3
ECO 315	Intermediate Microeconomic Theory	3
ECO 317	Intermediate Macroeconomic Theory	3
