Academic Planning

Educational Decisions

Choosing a Major and Making Career Choices

This is never a simple decision. Many students change majors at least once.

Although you do not need to choose a specific major, you will need to choose an academic division when you register. If you are undecided, you are assigned to the College of Arts and Science for advising purposes. In most cases, if you use your first year to take courses that fulfill the Global Miami Plan and divisional requirements, you can still complete a major program with no delay. However, to complete some majors in a four-year time period, you must begin them as a first year student.

To make academic and career choices, you need to consider your interests and abilities. Although you may have a strong sense of your academic strengths and weaknesses, it is important to remember that your interests are still developing and, like more specific skills, depend on exposure to various activities and ideas.

The Center for Career Exploration and Success, located in 45 Armstrong Center, can also help you understand how majors connect to various careers. The Center’s website http://miamioh.edu/emss/offices/career-services/index.html provides useful career information and links to dozens of other career-related sites where you can explore different jobs by major. Career Services also offers one-on-one mentoring, workshops to help you explore careers, and standardized career assessments. Each of these opportunities can help you learn about your interests, abilities, and values and to relate them to your academic and career choices.

The Career Development and the College Student Course (EDL 100), provides opportunities to learn more about selecting a career. It is offered to first- and second-year students.

When you are ready to start your job or internship search, Career Services provides resume help, job or internship search strategies, mock interviewing, and can provide information about specific careers or internships. Over 300 employers visit campus annually for on-campus interviews. To learn more about the employers that visit campus, and to make yourself eligible for the interviews and advising appointments, sign up for a Miami Handshake account using your banner ID: https://miamioh.joinhandshake.com/login

Finally, don’t forget to talk with your assigned academic advisor in the department or division of your primary major; your advisor can offer you informed advice on curriculum, career opportunities within fields, and opportunities for advanced study.

Programs with Special Admission Requirements

To be eligible to apply for admission into these programs, students must be admitted to Miami University as a matriculated student with a high school diploma or equivalent. Additionally, these some programs have special requirements that call for careful planning. For example, you must be admitted to most majors in the College of Creative Arts or the Department of Nursing (Hamilton & Middletown campuses only) before you may declare the major. Also, teacher licensure programs and science and technical major programs require specific courses that are usually taken in a specific order.

It is important to check your major’s requirements. Programs are listed in each division’s chapter.

At present, majors with limited or restricted entry include nursing, social work, special education, speech pathology and audiology, all licensure programs in the Department of Teacher Education, all programs in the Farmer School of Business, and most majors in the College of Creative Arts.

Academic Advising

Academic advisors are available to help you understand academic requirements and to address your concerns. They can provide you with information and resources that will help you make decisions about your class schedule, course of study, and future opportunities.

Students will be assigned a faculty or professional academic advisor within the department or division of their major prior to their first semester at Miami. When students change majors, their academic advisor will likely change. Students who have not declared a major will be advised by a specifically trained academic advisor within the University Studies program.

Residence hall staff members are trained professionals who will assist first- and second-year students with addressing transitional issues, understanding university tools and resources, making appropriate referrals, and helping them to integrate their academic, personal, and co-curricular life.

Mid-Semester Grade Reports

By the end of the eighth week of classes in the fall and spring semesters, instructors are required to submit midterm grades for all undergraduate students who have 45 or fewer earned credits at Miami University. Instructors are encouraged to submit midterm grades for all other students. This requirement applies to all full-term classes and twelve-week “Q” sprint classes during the fall and spring semesters. Midterm grades are not required during other fall and spring semester sprint classes or for any winter and summer terms. Midterm grades are available to students online through BannerWeb. Midterm grades provide students the opportunity to assess their academic performance while there is still time to improve before receiving official grades. Midterm grades are not recorded on student’s academic records. Academic advisors also have access to students’ midterm grades, and they will meet with all students who are struggling to discuss strategies for improving academic performance.

Academic Support

Bernard B. Rinella, Jr. Learning Center
306 Shriver Center, 513-529-8741
www.MiamiOH.edu/learning

Students experiencing academic difficulty can seek assistance at the Rinella Learning Center. One-to-one and small group tutoring is available; tutoring is geared to develop self-confidence and independence. Peer tutors reinforce course material and help students to develop strategies to learn class material, prepare for homework, and take exams. Tutoring is free of charge. Requests for
tutoring can be made on-line at www.MiamiOH.edu/tutoring. Learning specialists are also available for individual consultations.

In addition to the Tutorial Assistance Program, the Center is the umbrella for a number of programs and services that includes the Office of Student Disability Services (SDS) which provides support for students with LD and ADHD; the Scholastic Enhancement Program for specially admitted students; as well as Supplemental Instruction and Academic Coaching. The Center also coordinates support for students on academic warning, probation or returning from suspension or dismissal.

**Miller Center for Student Disability Services (SDS)**
304 Shriver Center, 513-529-1541 (TTY accessible)
www.MiamiOH.edu/SDS

The Miller Center for Student Disability Services (SDS) provides services and mandated accommodations for students with disabilities to ensure equal access to inclusive education and university life at Miami University. SDS coordinates accommodations through various campus, state, and national partners to provide services including, but not limited to, alternative formats for textbooks, orientation mobility training, campus transportation, sign language interpreters, CART services, modified housing, testing accommodations, advance registration, and advocacy.

**Instructors’ Office Hours**
Most instructors have regularly scheduled office hours to meet with students. These are usually posted outside their office doors and on the course syllabus. To make an appointment for another time, contact the instructor or department administrative assistant.

### Advanced Placement Program (AP)

The State of Ohio, working with public institutions of higher education, has initiated policies to facilitate the ease of transition from high school to college, as well as between and among Ohio’s public colleges and universities.

Beginning in the Fall term 2009:

1. Students obtaining an Advanced Placement (AP) exam score of 3 or above will be awarded the aligned course(s) and credits for the AP exam area(s) successfully completed.
2. General Education courses and credits received will be applied towards graduation and will satisfy a general education requirement if the course(s) to which the AP area is equivalent fulfill a requirement.
3. If an equivalent course is not available for the AP exam area completed, elective or area credit will be awarded in the appropriate academic discipline and will be applied towards graduation where such elective credit options exist within the academic major.
4. Additional courses or credits may be available when a score of 4 or 5 is obtained. Award of credit for higher score values varies depending on the institution and academic discipline.

In academic disciplines containing highly dependent sequences (Sciences, Technology, Engineering and Mathematics -STEM), students are strongly advised to confer with the college/university advising staff to ensure they have the appropriate foundation to be successful in advanced coursework within the sequence.

College Level Examination Program (CLEP)

Contact Miami Hamilton Office of Academic Advising (204 Rentschler Hall, 513-785-3129) for information about CLEP.

The State of Ohio, working with public institutions of higher education and statewide faculty panels, has developed policies to recognize students’ prior learning and to facilitate the articulation and guaranteed transfer of such learning between Ohio’s public colleges and universities.

College credit is guaranteed for students who achieve an established College-Level Examination Program (CLEP) test score for exams that have been endorsed statewide as college level. Statewide faculty panels aligned CLEP exams to equivalent Ohio Transfer Module (OTM) and Transfer Assurance Guide (TAG) courses, as appropriate. If an equivalent course is not available for the CLEP exam area, by default, endorsed elective or area credit will still be awarded and applied towards graduation.

Specific-endorsed alignments and scores for individual CLEP exams that are outlined in the College-Level Examination Program (CLEP) Endorsed Alignment Policies document are available on the Ohio Department of Higher Education website at: https://www.ohiohighered.org/transfer/clep.

Credit is awarded for satisfactory scores on some CLEP Subject Examinations. Tests are scored by the Educational Testing Service, Princeton, New Jersey. Because there is a fee for each test (see the Fees and Expenses section), we encourage you to take them only if you have had the equivalent of a college course in the subject area.

Miami’s Hamilton campus operates an open CLEP testing center, which means tests are offered to university students as well as to members of the community who are not enrolled at Miami University. Miami’s Middletown and Oxford campuses do not currently offer CLEP testing. The CLEP exam can be taken at any testing site and the score reported to Miami University.

Ohio Department of Higher Education, working with public institutions of higher education, has initiated policies and procedures to recognize students’ prior learning through College Board College-Level Examination Program (CLEP).

1. General Education courses and credits received will be applied towards graduation and will satisfy a general education requirement if the course(s) to which the CLEP area is equivalent fulfills a requirement.
2. If an equivalent course is not available for the CLEP exam area completed, elective or area credit will be awarded in the appropriate academic discipline and will be applied towards graduation where such elective credit options exist within the academic major.
3. Additional courses or credits may be available when a higher score is obtained. Award of credit for higher score values varies depending on the institution and academic discipline.

In academic disciplines containing highly dependent sequences (Sciences, Technology, Engineering and Mathematics – STEM) students are strongly advised to confer with the college/university advising staff to ensure they have the appropriate foundation to be successful in advanced coursework within the sequence.

American Government: credit for OTM Social Sciences (3) for score of 56-62; credit for POL 241 for score of 63.
American Literature: credit for OTM Arts and Humanities (3) for score of 53.
Analyzing and Interpreting Literature: credit for OTM Arts and Humanities (3) for score of 59.
Biology: credit for OTM Natural Sciences (3) for score of 50.
Calculus: credit for MTH 151 for score of 64.
Chemistry: credit for OTM Natural Sciences (3) for score of 50-65; credit for CHM 141 for score of 66.
College Algebra: credit for OTM Mathematics, Statistics, and Logic (3) for score of 63.
College Mathematics: credit for OTM Mathematics, Statistics, and Logic (3) for score of 63.
English Literature: credit for OTM Arts and Humanities (3) for score of 63.
French Language: credit for FRE 101, FRE 102 for score of 55-64; credit for FRE 101, FRE 102, FRE 201, FRE 202 for a score of 65.
Financial Accounting: credit for ACC 221 or CMR 101 (depending on student’s major requirement) for a score of 65.
German Language: credit for GER 101 and GER 102 for score of 59-66; credit for GER 101, GER 102, and GER 111 for score of 67.
History of the United States I: credit for HST 111 for score of 61.
History of the United States II: credit for HST 112 for score of 57.
Human Growth and Development: credit for PSY 231 for a score of 58.
Humanities: credit for OTM Arts and Humanities (3) for score of 55.
Information Systems: general elective credit for score of 50.
Introductory to Business Law: credit for BLS 342 or CMR 108 (depending on student’s major requirement) for score of 57.
Introduction to Educational Psychology: credit for OTM Social Sciences (3) for score of 62.
Introductory Psychology: credit for PSY 111 for score of 55.
Introductory Sociology: credit for SOC 153 for score of 56.
Macroeconomics: credit for ECO 202 for score of 56 or higher.
Microeconomics: credit for ECO 201 for score of 57 or higher.
Precalculus: credit for MTH 125 for score of 61.
Principles of Management: credit for MGT 111 for score of 50.
Principles of Marketing: credit for MKT 291 for score of 65.
Social Sciences and History: credit for OTM Social Sciences (3) for score of 63.
Spanish Language: credit for SPN 101, SPN 102 for score of 56-62; credit for SPN 101, SPN 102, SPN 201, for score of 63-67; credit for SPN 101, SPN 102, SPN 201, SPN 202 for score of 68.

Western Civilization I: credit for OTM Arts and Humanities for score of 55.

Western Civilization II: credit for OTM Arts and Humanities for score of 54.

International Baccalaureate Program (IB)

Miami awards credit to IB diploma graduates for higher level subjects passed at a satisfactory level (minimum scores vary 5 to 7 by subject area). Standard levels are not awarded credit. Departments make the final determinations on credit.

Anthropology (acceptable score 5 or better)
Credit for ATH 175 and ATH 231.

Biology (acceptable score 5 or better)
Credit for BIO 116.

Business & Management (acceptable score 5 or better)
Credit for MGT 111.

Chemistry (acceptable score 5 or better)
Credit for CHM 141, CHM 142 and CHM 144, CHM 145.

Chinese (acceptable score 5 or better)
Credit for CHI 101 and CHI 102.

Computer Science (acceptable score 5 or better)
Credit for CSE 151and CSE 163.

Design Technology (acceptable score of 5 or better)
Credit for ENT 137 and ENT 135.

Economics (acceptable score 5 or better)
Credit for ECO 201 and ECO 202.

English A (acceptable score 6 or better)
Credit for ENG 111 and ENG 122.

English B (no credit awarded).

French (acceptable score 5)
Credit for FRE 202.

French (acceptable score of 6 or 7)
Credit for FRE 202 and FRE 341.

Geography (acceptable score 5 or better)
Credit for GEO 121 and GEO 201.

German B (acceptable score 5 or better)
Credit for GER 101 and GER 102.

Global Politics (acceptable score 5 or better)
Credit for POL 271.

History of Africa (acceptable score 5 or better)
Credit for HST 224 and HST 225.

History of the Americas (acceptable score 5 or better)
Credit for HST 111 and HST 112.

History of Asia and Oceana (acceptable score 5 or better)
Credit for HST 324 and HST 353.

History of Europe (acceptable score of 5 or better)
Credit for HST 197 and HST 198.

History of Europe and the Islamic World (acceptable score of 5 or better)
Credit for HST 241 and HST 246.

History of Europe and the Middle East (acceptable score 5 or better)
Credit for HST 198 and HST 241.

Italian (acceptable score of 5 or better)
Credit for ITL 202.

Latin (acceptable score 6 or 7)
Credit for LAT 201.

Mathematics (acceptable score 6 or better)
Credit for MTH 151.

Music (acceptable score 5 or better)
Credit for MUS 101 and MUS 151.

Music Composition (acceptable score 5 or better)
Credit for MUS 171.

Music History (acceptable score 5 or better)
Credits to be evaluated by department.

Philosophy (acceptable score 6 or better)
Credit for PHL 105.

Physics (acceptable score 6 or better)
Credit for PHY 191 and PHY 192.

Psychology (acceptable score 5 or better)
Credit for PSY 111.

Russian B (acceptable score 5)
Credit for RUS 101 and RUS 102.

Spanish A (acceptable score 5)
Credit for SPN 101 and SPN 102.

Spanish A (acceptable score 6 or better)
Credit for SPN 101, SPN 102, and SPN 201.

Spanish B (acceptable score 5 or better)
Credit for SPN 101 and SPN 102.

Spanish B (acceptable score 6 or better)
Credit for SPN 101, SPN 102 and SPN 201.

Theatre (acceptable score 5 or better)

Department Proficiency Examinations

These exams may be offered each semester. Each department in which tests are offered administers its own test, and credit applies toward graduation. You may take a proficiency examination during any semester or term in which you are enrolled. Fees are charged per credit hour after the first hour if the examination is passed. See the Fees and Expenses chapter for test charges.

To be approved for a proficiency examination, you must satisfy the department that you have a reasonable chance of passing it.
Normally, these examinations are for courses below the 300 level, but they may be given for advanced courses with approvals of the department chair and the dean of the division in which the course is offered.

You may obtain credit or advanced placement, or both, by examinations in areas in which you have had adequate preparation. Credit earned is traditional credit and is not counted in the admissible 32 semester hours of nontraditional credit. No grades are awarded for proficiency examinations.

**Business Technology**: offered for CMR 181, CMR 224, CMR 282.

**Computer Science**: two exams offered in CSE 174 and CSE 271.

**English**: submit a writing portfolio to the Composition Program in the department in the summer before your enrollment. For details about eligibility, requirements and deadlines refer to the Composition Program website at http://www.units.MiamiOH.edu/portfolio/.

**Information Technology**: offered for CIT 154, CIT 167, CIT 168, and CIT 214.

**Mathematics**: offered in MTH 151, MTH 222, MTH 251. Contact the MTH department office for details; a group proficiency exam in MTH 151 is usually given during the first week of the fall semester.

**Music**: offered in MUS 101, MUS 102, MUS 119, MUS 151, MUS 152.

**Placement Guides**

Designed to help you choose your first course in the fields below, these guides describe the background necessary to enter courses at a certain level.

If you find that you have chosen a course that is too difficult, you can drop it (before the deadline to drop, listed in the Academic Calendar at MiamiOH.edu/OneStop) and begin with an easier course in a later semester.

**Chemistry**

CHM 111 and CHM 111L: for non-science majors; no previous chemistry is necessary. CHM 111 and CHM 111L fulfill the MFP natural science requirement and laboratory requirement. CHM 111L can be taken without the lecture course.

CHM 141, CHM 141R, CHM 142, CHM 144, CHM 145: lectures and laboratories for students preparing for careers in health professions and sciences, engineering, or science teaching. See note below about math placement scores.

CHM 141 or CHM 141H, and CHM 142H or CHM 142M: lectures for students majoring in chemistry or biochemistry. CHM 144M or CHM 144H and CHM 145M or CHM 145H: laboratories students majoring in chemistry or biochemistry majors. See note below about math placement scores.

Certain ACT/SAT math sub-scores are required for placement into any CHM 14x courses.

- ACT math score 21 / SAT math score 519- and lower -you must complete a math course before enrolling in the CHM 14x series; see an advisor to choose an appropriate math course.
- ACT math score 22 / SAT math score 520- and higher -and no high school chemistry: enroll in CHM 141R (regional campus students only).
- ACT math score 22 / SAT math score 520- and higher -you can register for CHM 141 / 141H (honors students).

CHM 147: introductory seminar strongly recommended for all chemistry and biochemistry majors; one credit hour with credit/no credit grading.

**Foreign Language**

Placement is based on:

1. high school preparation (typically, one year of high school equates to one college semester), and
2. results of placement testing administered by Miami University.

You cannot take a foreign language course for credit at a lower level than you are prepared for. After being placed, you cannot skip a course in the sequence leading to 202.

If you intend to continue studying the same foreign language as you did in high school, you must take a placement exam for that language before you are able to enroll in a college level course. Students should take the placement exams online prior to attending an orientation program. Continuing students wishing to enter a language sequence should take the placement exam and then seek advising before enrolling in a course.

Placement exams for French, German, Russian, and Spanish are available online and access to the results is immediate and will be used for placement and advising. An exam for Latin is available online, however, the results are not immediate as it requires to be scored by a faculty member and the results sent to you; please plan accordingly. Guidance for placement into our remaining languages (ancient Greek, Arabic, Chinese (Mandarin), Italian, Japanese, and Korean) is available online via the Interactive Language Resource Center or by consulting with a language advisor. Students interested in continuing their study of American Sign Language should communicate with the department of Speech Pathology & Audiology (513-529-2500) for placement information.

Please take the exam seriously as it may have an impact on your future course selections. Academic credit is not awarded as a result of any foreign language placement test.

- 101 level: for those beginning a new language or whose placement exam scores indicate they are not prepared to enter 102.
- 102 level: for those who have successfully completed 101. Also for those whose placement exam scores indicate they are not prepared to enter the second-year level.
- 111 in German: review course for those whose placement exam scores indicate they are not prepared to enter second-year level. After completing 111, students enter 201.” and “111 in Spanish: intensive first-year course for those whose placement exam scores indicate they are not prepared to enter second-year level. After completing 111, students enter 201.” to “111 LEVEL in German, Latin, Spanish: intensive first-year course for those whose placement exam scores indicate they are not prepared to enter second-year level. After completing 111, students enter 201.”
• 111 in Spanish: intensive first-year course for those whose placement exam scores indicate they are not prepared to enter second-year level. After completing 111, students enter 201.

• 121 level in Latin: intensive review course for those whose placement exam scores indicate they are not prepared to enter the second-year level. After completing 121, students enter 202.

• 201 level: for those who have successfully completed 102, SPN 111, or equivalent, or achieved an appropriate placement exam score.

• 202 level: for those who have successfully completed 121, 201, or equivalent, or achieved an appropriate placement exam score; this course fulfills the language requirement for the College of Arts and Science (CAS-A).

• 203 level: offered in Spanish, for those who have successfully completed SPN 201 or achieved an appropriate placement exam score; designed as an alternative to SPN 202 for those interested in the health care field. Credit not given for both 202 and 203. This course fulfills the language requirement for the College of Arts and Science (CAS-A).

• 211 level: intensive second-year course for those who have achieved an appropriate placement exam score. This course fulfills the language requirement for the College of Arts and Science (CAS-A).

• 301 level and above: for those who have successfully completed 202 or equivalent, or achieved an appropriate placement exam score. Any foreign language course at 300 level or above fulfills the language requirement for the College of Arts and Science (CAS-A), not including courses in translation.

Physics
All courses listed here can be used to fulfill the natural science section of the Miami Plan.

PHY 101, PHY 111, PHY 118, PHY 121, PHY 131, PHY 141: general physics course. PHY 103 has a prerequisite; see course descriptions.

PHY 161, PHY 162: Physics sequence for students who have had mathematics courses that include trigonometry. PHY 161 is a prerequisite to PHY 162. Math prerequisite for 161 is a math subscore of 26 or greater on the ACT, a 610 and greater on the SAT, an international math placement score of 16, or MTH 125.

PHY 191, PHY 192: physics sequence recommended for science and engineering students who have taken or are concurrently enrolled in a calculus course. PHY 191 is a prerequisite for PHY 192. Math prerequisite for 191 is credit for, or concurrent enrollment in, MTH 151.

Algebra and Trigonometry
(See Mathematics and Statistics at the end of this chapter.)

MTH 025 Algebra Concepts for Precalculus (5); one semester. This is a remedial course for students whose ACT math score is a 21 (or lower) or SAT math score is a 539 (or lower). Credits earned from this course will not count toward graduation. Next course is MTH 125.

MTH 125 : Precalculus (5); one semester. Review of algebra topics important for calculus. Functions, polynomials, rational functions, logarithmic and exponential functions, trigonometric functions and their inverses, conic sections, nonlinear systems, and applications of functions. Next course is MTH 151.

Calculus
(See Mathematics and Statistics at the end of this chapter.)

MTH 151: Calculus I (5); covers: limits and continuity, derivatives, integration, calculus of trigonometric and exponential functions. For students who have had little or no high school calculus. This is the first semester in calculus sequence MTH 151, MTH 251, MTH 252.

MTH 249: Calculus II (5); primarily for students who have AP credit for Calculus I (limited to first-years). Reviews concepts of limit, derivative, and integrals from Calculus I, then covers same content as MTH 251. This is the first semester of calculus sequence MTH 249, MTH 252 and covers same topics as MTH 151, MTH 251, MTH 252.

MTH 251: Calculus II (4); continuation of Calculus I with plane analytic geometry, techniques of integration, parametric equations, polar coordinates, infinite series, approximations, applications. Credit not given for both MTH 249 and MTH 251.
### Mathematics and Statistics

Starting in the fall of 2018, the university moved to using math sub-scores of the ACT and SAT exams. The following chart will help you understand what math or statistics course you can start with. If you have additional questions, please consult the department of Mathematics (513-529-5818).

<table>
<thead>
<tr>
<th>If you plan to</th>
<th>and you have passed these high school classes</th>
<th>and have these scores on the test</th>
<th>then take</th>
</tr>
</thead>
<tbody>
<tr>
<td>Take a calculus course</td>
<td>(a) one year of calculus including log, exponential, and trig functions</td>
<td>3-5 on AP Calculus BC</td>
<td>see math advisor</td>
</tr>
<tr>
<td></td>
<td></td>
<td>4-5 on AP Calculus AB or</td>
<td>MTH 249</td>

<td>MTH 115 or MTH 116 (for Special Ed and ECE only)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

* A score of 3 on the AP Calculus AB will confer credit for MTH 151. However, if you intend to eventually take Calculus II, the department recommends retaking MTH 151.

The regional campuses follow Oxford placement rules and also offer other standardized placement tests, such as Accuplacer.
