

Applied Social Research (ASO)

ASO 201. Introduction to Applied Social Research. (3)

Social scientists (anthropologists, geographers, psychologists, sociologists, etc.) conduct empirical research in order to explain our social world. ASO 201 is the first course in a sequence of three foundational courses (ASO 201, ASO 301, ASO 401) that will provide students with the knowledge and skills they need to design, conduct, and interpret applied social research. In ASO 201, students gain an overview of the multiple theoretical approaches guiding social research. Students will examine approaches from multiple disciplines within the social sciences to determine how research is conducted within these fields to explore, understand, and implement practical solutions to important social issues.
