

# Interior Design - Bachelor of Fine Arts

For information, please contact the Department of Architecture + Interior Design, 101 Alumni Hall, 513-529-7210.

This professional degree program prepares graduates to enter the interior design field or a graduate program in interior design, architecture, or a related discipline.

The curriculum promotes competency in fundamental design, design process, and visual communication, and an understanding of interior materials and systems, history and theory, and professional procedures. Graduates integrate the various aesthetic, social, technical, and graphic requirements of interior design problems.

The program balances liberal learning with a comprehensive professional education. It emphasizes interdisciplinary learning (reflective of the discipline and of trends in practice) by requiring several courses outside the major and by emphasizing interdisciplinary courses and projects. The program promotes independent, self-directed course work and research, with the intention of developing in the student a specialized knowledge as a complement to a broad-based, generalized understanding of the discipline.
