Global Miami Plan for Liberal Education

Miami University was founded on the belief that a liberal education provides the best possible framework for life in a changing world. At Miami, liberal education complements specialized studies in the major. It is designed to help students understand and creatively transform human culture and society by giving students the tools to ask questions, examine assumptions, exchange views with others, and become better global citizens.

The Office of Liberal Education, in collaboration with the Liberal Education Council, has reviewed and strengthened the Miami Global Plan to:

- advance 21st century learning outcomes (based on employer studies);
